

Written Testimony only supporting SB 474-proponent

Chairman Thompson and Members of the Committee,

K.S.A 12-3013 exist to give residents a voice in their community when the local government refuses to listen to the majority of their residents. Our Prairie Village City Council sued the residents that filed a petition to let us vote on a very unpopular zoning issue. The loophole was of course administrative vs legislative. This will tie the issue up in court for years. Please move SB 474 forward. It will give residents a chance to be heard and is fair democracy.
