Testimony of Joesphe Stiles
Kansas House of Representatives
Committee on Transportation
Tuesday, January 29, 2013

Mr Chairman, Representative Perry, and Honorable Gentlemen and Gentlewomen,

In the last session, this committee worked an affinity license plate program for the Grand Masonic Lodge of Kansas. I would like to reiterate my thanks to you all for that.

Though we have not yet completely assessed the feasibility of them, we have also received a fair amount of expressed interest in Motorcycle plates. Since you are working a bill for cycle plates for the Regents Institutions, I'd like to ask you to not reinvent the wheel twice and consider including text in that bill to allow other affinity plate organizations, or at least us, to be included in that.

Thank you for your time and attention to this matter and for your hard and good work in the legislature in general. I welcome any questions or concerns you may have on this matter.
